

PP-H TUBES

MATERIAL

PP-H (polypropylene-homopolymer). This material is appropriate to be used in contact with drinkable water and other fluids at temperatures which can go until 90°C. This material is in accordance with the standards ISO/TR7471.

ASSEMBLY

By screwing according to ISO 7/1 recommendations. The tubes in PP-H are expected to be assembled with other fittings in plastic material (PPR).

SERVICE PRESSURE

The service pressure, just as an indication, is of 10 bar at 20°C (water) or 2 bar at 90°C (water).

ABBREVIATION INTERPRETATION

- G - Nominal diameter of the screw
- Gr - Approximate weight of fittings in grams
- ★ - Products not manufactured by Plimat, S.A.

Note: each rod of tube has 5 meters of length
